WORK EXPERIENCE

Maverick Software Consulting

Ames, IA

Software Engineer

November 2021-Present

- Worked as a Software Engineer for Maverick Software in collaboration with Thomson Reuters.
- Almost one year of continuous software development experience.
- Used Java to develop, refactor, and debug projects in Eclipse and IntelliJ.
- Developed tests and fixed outdated tests to ensure processes were functioning correctly.
- Used SQL to create queries and manage databases in Oracle SQL Developer.
- Attended weekly scrum meetings with my team to collaborate and plan what the next steps would be.
- Utilized Git to push changes and get the latest changes in the project.
- Used Azure Team Foundation Server to create and manage stories during the development process.
